

The Smart Move

Singapore: Empowering Sustainable Innovation

Aurigo

Aurigo supplies premium products and engineering services to the automotive industry and autonomous vehicles and technology to first and last mile passenger applications, as well as, automated baggage handling solutions for airports. Aurigo has developed a track record as a tier 1 supplier for high quality, innovative engineering solutions, supplying some of the world's largest and well-known companies such as Rolls Royce, Bentley, British Airways and McLaren.

Why Singapore?

Singapore is known for embracing new technologies. A successful pilot with Changi Airport Group sets the stage for further partnerships.

UK

Transport Technology Solutions

Descartes

Descartes Underwriting was established by a team of experienced insurers and climate scientists with a strong belief in the transformative potential of technology in the insurance industry. Their mission is to provide innovative parametric protection that instils confidence in business continuity amidst climate volatility. Descartes Underwriting collaborate with (re)insurance brokers and (re)insurers globally to protect more than 400 corporate and governmental clients, operating across 6 continents against the full spectrum of climate and emerging risks.

Why Singapore?

Leverage Singapore as a hub to extend parametric climate risk coverage to Asian markets, where the effect of climate change is especially severe and extreme weather events are much more prevalent.

Insurance

EcoVadis

EcoVadis is a purpose-driven company whose mission is to provide the world's most trusted business sustainability ratings. EcoVadis' expert intelligence and evidence-based ratings help businesses to monitor and improve the sustainability performance of their business and trading partners. Its actionable scorecards, benchmarks, carbon action tools, and insights guide an improvement journey for environmental, social and ethical practices across 200 industry categories and 175 countries.

Why Singapore?

Singapore's proximity to key markets and attraction of global talent creates an ideal hub for EcoVadis.

Singapore government actively promotes ESG growth by offering subsidies for company ratings and implementing policies like the Green Plan 2030.
